\* Data Source: American Bar Association's National Lawyer Population Survey

\*\* Individual state bar associations or licensing agencies are asked to provide the number of resident and active attorneys as of December 31st of the prior year, e.g. 2015 data is as of 12/31/2014. The numbers reflected here are the best available data provided to us from the respective associations or agencies; significant exceptions are noted below.

(1) The Alabama number reflects all resident attorneys regardless of whether they were active or not.

(2) In 2006 Rhode Island and Minnesota were able to provide the total number of resident and active attorneys. In earlier years the number reflects all resident attorneys regardless of whether they were active or not, so the 2006 decrease represents greater accuracy in counting.

(3) The territory of Northern Mariana Islands is new to the survey in 2006.

(4) Ohio's numbers from 2005 were reported from data collected in April 2005, when the new bar admittees had been sworn in causing an increase in the numbers. For all other years the numbers reflect December 31st.

(5) In 2006, the Pennsylvania reporting source shifted from the State Bar to the State Licensing Agency who was able to provide more complete statistics including lawyers with addresses that were unlisted or withheld, so the increase represents greater accuracy in counting.

(6) The territories of American Samoa and Guam were new to the survey in 2007.

(7) Illinois, Guam, and Puerto Rico did not provide current data for 2011 so prior year's stats were used.

(8) During 2011, Indiana began using a new system for attorney registration leading to greater accuracy in reporting in 2012.

(9) Arizona, Illinois, Guam, Puerto Rico, and the Virgin Islands did not provide current data for 2012 so prior year's stats were used.

(10) Oregon, Guam, and the Virgin Islands did not provide current data for 2013 so prior year's stats were used.

(11) Dist. of Columbia, Florida, Maine, Mississippi, Nebraska, Nevada, New Mexico, Oregon, Puerto Rico, Tennessee, Utah, and Vermont did not provide current data for 2014 so the data from the most recent submission were used.

(12) Due to timing of the survey in 2014, the following states submitted data from Fall 2014 rather than as of December 31, 2013: Arkansas, Connecticut, Indiana, Kansas, Louisiana, Michigan, Minnesota, Missouri, North Carolina, Rhode Island, Virginia, Wisconsin, West Virginia, and Wyoming. All but Kansas, Louisiana, Minnesota, Rhode Island, Virginia, and West Virginia chose not to submit updated data for the 2015 survey.

(13) Prior to the 2014 survey, the Virgin Islands did not report on active/inactive status. The decrease in 2014 is a more accurate representation of Resident Active lawyers.

(14) Prior to the 2014 survey, Oklahoma excluded lawyers categorized as "Over 70" from their Resident Active submission. The 2014 results include this group.
